**\* Regions for economic change Initiative**  
**Sharing Excellence** (Brussels, 25 & 26 February 2008)

The aim of "Regions For Economic Change" is to address core issues facing Europe by building a stronger link between the exchange of good practices in EU networking programmes (Interreg IV C & Urbact II) and the main body of EU cohesion funding in national and regional operational programmes. To achieve this aim, Regions for Economic Change has introduced four elements: identification of priority themes focused on on the Lisbon Agenda, emphasis on a two-way bridge between thematic networking and the mainstream programmes, an enhanced joint communication effort and a 'fast track' option, where the Commission will offer its expertise to a number of networks.

This brochure (16 pages) has been produced as part of the Commission's work under the third element above.
